

## Tikchik Narrows Lodge

### A Special Note on Tackle

*For convenience and ease of travel, Tikchik will provide all fishing rods, reels, lures and flies for your week of fishing.*

We provide 7 weight and 9 weight fly rods. We do have a few 5 weight and 6 weight rods for day use if we are fishing a smaller stream. We do not have a supply of other weight rods. If you wish to fish with a lighter or heavier rod, you should plan on bringing them with you.

As a standard, all fly reels will be left hand retrieve. This means that you would reel with the left hand while holding the rod with the right. Should you require a right-hand retrieve, please complete the form below and submit it with your Rooming Assignment sheet, or drop us an e-mail. Your correspondence will ensure that the correct rod for you is ready and waiting upon your arrival at the river.

Spinning reels are interchangeable and we have both right and left hand retrieve bait casting rods for King Salmon.

*Thank you!*
